WASHINGTON SENTINEL.

VOL. 2.

TRI-WEEKLY.

NO. 136.

CITY OF WASHINGTON, TUESDAY MORNING AUGUST 21, 1855.

WOOD GAS,-CAUTION. BE it known that I, the subscriber obtained letters patent in December, 1851, for an apparatus for the destructive distillation of wood, and the making therefrom of tar or pitch at wood, and the making therefrom of tar or pitch at pleasure, and gas; and that in the judgment of competent persons the invention of an appartus recently patented by W. D. Porter cannot be used by him or any other person without infringing my said patent. And, further, that what is patented by said Porter rightfully belongs to me, as I expect to prove ere long before the United States Patent Office; and, further, that the use of said Porter's invention involves also a process which I am now claiming before the United States which I am now claiming before the United States Patent Office, and which has been adjudged to be patentable to the first inventor thereof, and which said W. D. Porter has formally disclaimed, as ap-

pears upon the public records of said office, of which an official copy is hereto annexed, and also a copy of his claims.

In the National Intelligencer of the 25th instant
Mr. Porter announces that he has secured by patent the "exclusive right to making gas from wood," and threatens prosecution to all parties infringing his patent. I ask how this statement comports with the fact of my patent of December, 1851, and how far the threat can intimidate under such circumstances? Mr. Porter's claim is based upon a movable perforated diaphragm, and was so understood by the Patent Office, as it appears from the records of the Patent Office that his

PROSPECTUS

"WASHINGTON SENTINEL." PROPOSE to publish in the city of Washington, in September, a political newspaper, under the name of the WASHINGTON SENTI-

In doing so, it is proper 1 should make known the principles it will maintain, and the policy it will advocate.

will advocate.

It will support cordially and earnestly the principles of the Democratic party of the United States it does not propose to be the organ of any Department of the Government, except in so far as an independent maintenance of the doctrines of that party may represent its opinions and express its

It will not be ambitious to commend itself to the people by a blind flattery of their rulers. It will seek public support by the bold avowal of the sentiments which are common to the genuine Democracy of the Union, and by the condemnation of all such as may conflict with them, from whatever quarter they may come. It will seek to be (and it will endeavor to deserve the title) the organ of the Democratic party of the United

The SENTINEL will maintain, as a fundamental upon a movable perforated diaphragm, and was so understood by the Patent Office, as it appears from the records of the Patent Office that his claim was at first refused as interfering with a prior patent to Robert Foulis, of Canada, for an equivalent contrivance. This claim, as given below, and in which the perforated diaphragm is the saving clause, is what Mr. Porter calls securing the "exclusive right to making gas from wood."

The Sentinel will maintain, as a fundamental truth of that great party, that the States formed the Union between them by the ratification of the Content of the Federal Government, and delegated to it, as their common agent, the powers expressly specified in it, with an explicit reservation of all others to the States, or to their separate governments. The exercise of any powers beyond these the "exclusive right to making gas from wood."
The statement carries absurdity on its front, and is a libel on the good sense of the Patent Office If such a claim or right had been granted, it would be the control of the patent of the paten

their own creation.

The Sentinel will uphold and defend the Union The country.

The following copies of correspondence and extracts from the records of the Patent Office will show the true state of the case:

The SENTINEL will uphold and defend the Union upon the basis of the rights of the States—under the Constitution—and thus by sedulously guarding the latter, it will the more effectually strengthen and perpetuate the former

In respect to the internal administration of the Government, the Sentinel will sustain the settled policy of the Democratic party. It will labor to inculcate this cardinal doctrine of Democratic in ternal policy:—that this Government will best promote the freedom and prosperity of the people of the States, by being less ambitious to exercise power, and more arxious to preserve liberty; and by leaving to the individual States the manage ment of all their domestic concerns—while it conment of all their domestic concerns—while it con-tents itself with guarding the confederacy from external violence, and directing the foreign policy of the country to the promotion of the common interests, and defence of the common rights, and onor of the States composing it.

The Sentinel will advocate such a progressiv reign policy as will suit itself to the exigencies
